Video Features Women Ministers of Health

The LMG Project interviewed the Ministers of Health in Haiti and Afghanistan for International Women's Day 2014.

Blog: Institutionalizing Gender Equity for the Health

LMG eNewsletter - March 2014

Want Significant and Sustainable Health Results? Invest in Women!

Gender matters. So much so that health systems with gender-equitable policies and practices can save lives. The LMG project is currently working with health leaders, managers, and governors to develop gender-aware policies, AND make sure those policies evolve into activities that will have a positive impact on everyone at all levels of the health system.
